ESNRise NextGen Conference – Shaping the Future of Neuroradiology Careers

Regensburg, October 15th, 2026

Dear Institutional Council Members,

It was a pleasure to see you again at the ESNR Congress.

As mentioned at the last meeting, the ESNRise will organize their first conference, which will take place in Barcelona on 16–17 April 2027. The title of the event is **“ESNRise NextGen Conference – Shaping the Future of Neuroradiology Careers”**, with a focus on soft skills and the different career opportunities available to young neuroradiologists.

The event is primarily aimed at young neuroradiologists, but there will be no upper age limit. The detailed programme will be circulated as soon as possible; in the meantime, we are attaching a draft programme.

As this is the first event of its kind, we do not yet know what level of participation we can expect from colleagues from different parts of Europe. As ESNR is keen to encourage young neuroradiologists to attend the conference, and as many early-career colleagues may not have sufficient funding available themselves, we would like to invite national societies to consider supporting a number of younger members to participate in this networking and professional development event. The form and extent of such support would of course be entirely at the discretion of each national society.

Should your society be interested in supporting the initiative, for example by sponsoring registration or travel costs for one or more young neuroradiologists, we would be very happy to discuss the practical arrangements. We could for example reserve a number of places corresponding to your sponsorship. In the happy event that the conference reaches full capacity, we would not want to have to turn away participants from societies that have supported us.

Please feel free to get in touch with us if you would like to discuss this further. In the meantime, thank you very much for your support and consideration.

Best wishes,
Bianka Forgo and Fabio Doniselli
